

# “Simply effective.”

B-Cool MC 600

**Dr. Olivia Bossart and Stefan Freudiger**  
R&D Chemist and Product Manager  
Blaser Swisslube AG

# Robust performance in the production of large and small series.

## B-Cool MC 600

### For universal machining applications

- Suitable for cast iron, steel alloys and aluminum alloys
- Shows good material and machine compatibility

### For stable and safe processes

- Keeps workpieces and machines clean
- Is low foaming also in high-pressure systems
- Is gentle to people and the environment\*

\*Free of critical substances such as boron, chlorine, formaldehyde and sulfur.

## Developed to help you minimize your process costs

Economical formulation

Stable emulsion and clean workpieces

### Profit from our unique Liquid Tool

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound machining know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.
