

# Benefit from our experience with water-miscible coolants.

Grindex E 65

**Carola Buri and Viet Nguyen-Kim**  
R&D and Product Management  
Blaser Swisslube AG

Our Liquid Tool. Your Success.

# Robust and stable emulsion for all grinding applications.

## Grindex E 65

- Ensures stable processes and high repeatability
- Enables high feed rates
- Ensures long sump and wheel life as well as low top-up rate
- Odorless and gentle to people and the environment\*
- For grinding low and high-alloy steel, stainless steel and nickel alloys
- Suitable for both hard and soft water
- For individually filled machines and central systems

\*Free of critical substances such as boron and formaldehyde as well as chlorinated and sulfurous EP additives

## Achieve excellent results – from universal grinding to highly specialized applications in a variety of industries

For grinding small and big parts such as piston pins and turbine blisks

### Benefit from our unique Liquid Tool™

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.

Test us. It's worth it.
